

Verkada Guest Overview

Make Guests Feel
Welcome While
Strengthening
Security

Overview

Verkada Guest is a visitor management system that provides guests with a seamless experience from arrival to departure, while also strengthening building security.

Visitors can enjoy a welcoming and seamless experience with features like touchless check-in, simple document signing and automatic host notifications.

Guest also enables organizations to strengthen security. Color-coded badge printing allows employees to easily identify guests at a glance. And optional background checks give organizations added peace of mind that they know who is in their buildings.

Key features

Create a seamless visitor experience

- Customized check-in questions, simple document signing and automatic badge printing
- Pre-arrival and touchless check-in options
- Customized branding

Increase security

- Color-coded badge printing to easily identify guest type
- Screen against criminal databases and sex offender registries
- Mark someone as a Person of Interest from Guest

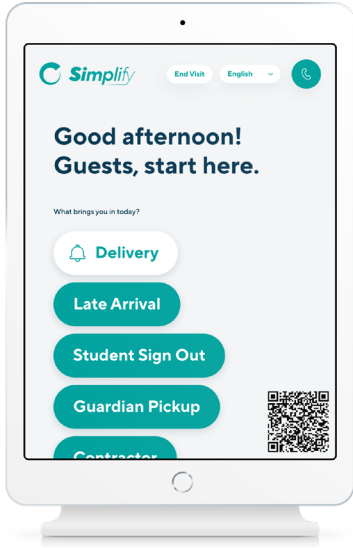

Streamline administrative workflows

- Automatically notify hosts when guests arrive
- Manage visitor activity in a single view
- Integrations with existing software systems

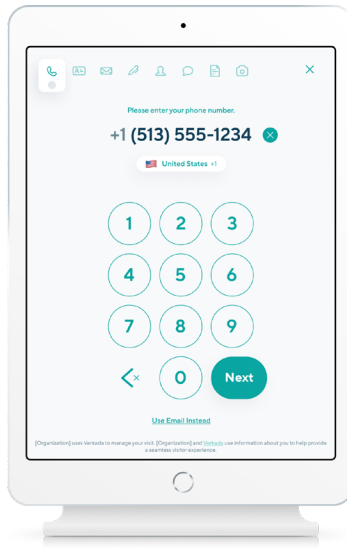

How it works

Seamless Visitor Experience

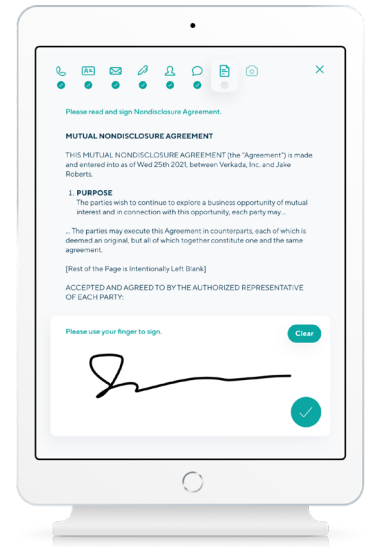

Verkada Guest is intuitive to use and provides visitors with a seamless experience from check-in to check-out. Custom questions, simple document signing and automatic host notifications allows visitors to quickly and easily check into their visit, even if a receptionist is not available.

1 Welcome your guests with a check in experience tailored to their visit.

2 Collect only the info you need for each guest type.

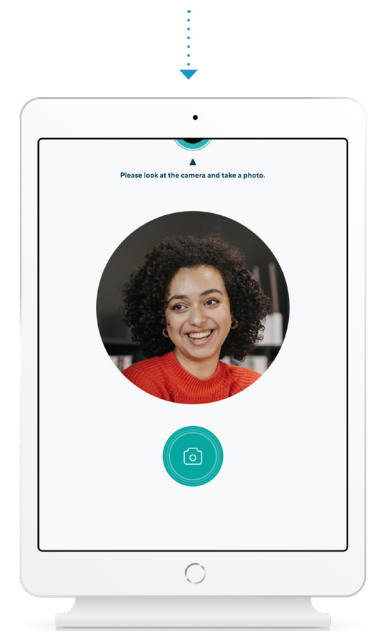

3 Present important documents for your guests to read and sign.

6 When the Guest is finished checking in, the host is notified via SMS, email, Slack, or Teams.

5 Print a badge with custom text or color borders for easier identification.

4 Capture a photo for your records.

No more check-in sheets or emailed documents to sign. With Verkada Guest, create a tailored workflow that seamlessly welcomes guests and provides an outstanding visitor experience.

Customize guest experience

- Select default check-in templates or create tailored flows for different visitor types with NDAs, questionnaires and more
- Create branded welcome screens and custom printed badges
- Set a default host for each visitor type if a specific host is not designated

Make guests feel welcome

- Instantly notify hosts via SMS, email, Slack or Teams when visitors arrive
- Unlock doors remotely to let visitors in
- Send custom welcome instructions to a guest via email or text messages after they sign in

Seamless check-in

- Touchless sign-in via QR code
- Pre-register guests with a calendar invite
- Self sign-out
- Easily notify a receptionist if in-person help is needed
